I did not get to file a 471 for additional cabling. I got the proposal after I had already filed the original 471 listed above. I was hoping to include the following in the 471 – Category 2.

Revival Technology, LLC - FEIN: 453420537

SPIN: 143049744

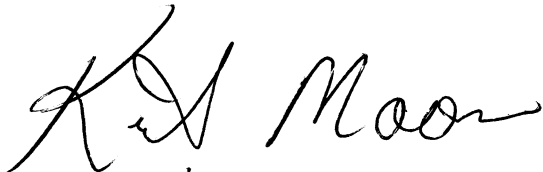

FRN: 0026144345

ERATE 470 Application # 180025243

I'd like to include the items only found on Page 4 of the proposal to be included in the 471. (Internal Connections). Please let me know, if there is anything else I need to do.

Thank you
